“I like the ease of the platform. The 806 team was helpful, and I feel like Title1Crate keeps everyone more organized.”

Kara Scarda, Title I Teacher Specialist

OVERVIEW

When Calvert County Public Schools, a district with 28 schools and over 18,000 students, was hit by the pandemic, they needed a solution for more efficient operations fast. Up until 2020, the district was using binders to try to keep things organized for their state audit. But the stress was too much. Calvert County Public Schools heard about 806 Technologies from a nearby district who was using Title1Crate.

SOLUTION

After seeing the powerful results that a district can achieve using Title1Crate, Calvert County Public Schools decided to make the switch from binders to going digital. With help from our team, the district converted every document into a PDF file, then uploaded it into the Title1Crate system in time for their state audit.

RESULTS

Calvert County Public Schools is pleased with how easy the platform is to use. The Title I personnel at the schools and district feel that their work is organized and easy to access for audits.
