

## GET EVERY CAMPUS IN ALIGNMENT

Monitoring this past year went very well - monitors spoke of the organization of our documents in a very positive way.

Julie Dyar, Federal Programs Director

### OVERVIEW

Laurens County School District, a district with 9 schools and over 6,500 students was struggling to effectively communicate with and maintain documentation for all the different programs that they had to monitor. They required a “one-stop-shop” tool for all their schools to be able to use.

### SOLUTION

Laurens County found Title1Crate, a tool that would allow every school to “drop” their documentation into for the district to monitor and provide feedback on. The initial training helped get every campus up-to-speed. Following the training, the team just uses the Live Chat feature inside Title1Crate whenever they have any questions. This is one particular feature that Laurens County loves!

### RESULTS

Implementing Title1Crate resulted in a significant reduction in paper filing, saved space, increased accountability, and increased teamwork and communication around compliance documentation.
